PROFESSIONAL SUMMARY

Product Designer / UI/UX Designer with 4+ years of design experience across web and mobile products, including SaaS dashboards, IoT monitoring, investment workflows, and service-provider platforms. Experienced in user research, user flows, wireframing, prototyping, interaction design, design systems, usability testing, and developer handoff. Proficient in Figma and Framer, with working knowledge of HTML and CSS. Focused on translating complex workflows into clear, responsive product experiences.

EXPERIENCE

Codersbay Technology UI/UX Designer (June 2025 to Present)

- Designed responsive web and mobile interfaces for product and client projects, applying user-centered design principles across key workflows.
- Conducted user research and translated findings into user flows, wireframes, and interactive prototypes to clarify user journeys.
- Partnered with developers and product managers during design-to-development handoff to support implementation and resolve design questions.
- Built and maintained reusable design-system components and libraries to support consistency across multiple products.
- Applied usability testing and WCAG accessibility practices to evaluate interface usability and inclusivity.
- Designed landing pages, dashboards, and mobile-first layouts, considering visual hierarchy, responsive behavior, and UX writing.

CodeQuery UI/UX Designer (Oct 2024 to June 2025)

- Designed web and mobile interfaces for client and in-house products, supporting customer-facing workflows.
- Created wireframes, prototypes, and user flows to structure user journeys and clarify task steps.
- Partnered with developers to support implementation and reduce UI inconsistencies.
- Conducted usability testing and applied accessibility considerations to improve workflow clarity.
- Designed interfaces for Testotry Care, a medical platform, and SerQ, a customer and service-provider application.

Nexviz Services Pvt. Ltd. UI/UX & Graphic Designer (Jan 2023 to Aug 2024)

- Designed interfaces aligned with product and brand goals, alongside visual assets for digital experiences.
- Facilitated UX strategy sessions and developed wireframes and prototypes using Figma and Adobe XD.
- Created reusable visual patterns and branding assets across digital platforms.
- Worked with cross-functional teams to deliver consistent design solutions.

Deo Biz Services Pvt. Ltd. Graphic Designer (May 2022 to Jan 2023)

- Created brochures, banners, and social media creatives aligned with marketing and client requirements.
- Produced visual assets for campaigns and collaborated with stakeholders to deliver work within deadlines.

PROJECTS

SafarTrak – IoT Tracking & Monitoring Platform Codersbay (2026)

Designed a centralized tracking and monitoring dashboard for vehicle and operational information. Created data-heavy dashboards, live-tracking interfaces, monitoring workflows, and information visualizations for operational users.

FAAD – Investment & Startup Platform Codersbay (2025)

Designed workflows connecting startups and investors, including onboarding, dashboards, profiles, forms, document workflows, and investment interfaces.

SerQ — Customer & Service Provider Platform CodeQuery (2024–2025)

Designed separate customer and service-provider experiences, including onboarding, service discovery, profiles, booking, and service-management flows for mobile applications. Developed reusable UI components and interaction patterns across user roles.

SYBOT — AI-Powered Sales Automation Platform Freelance (2023)

Designed a SaaS sales-tracking dashboard, AI agent management interface, automated lead-distribution workflow, real-time analytics dashboard, and guided onboarding experience.
